# About Eventful People

At Eventful, we truly believe in the power of people, which is why we bring innovative and passionate people together, and showcase the incredible progress they're driving.

Our events are special because we create an atmosphere where connections, idea sharing, learning and growth happens. Join us at Connecting SAP Technologies, Connecting SAP HR & Payroll and Connecting SAP Financials to see for yourself.

# Our totally **unique** recipe

We begin by collaborating with SAP customers through research groups. In these sessions, we attentively gather insights into the challenges, industry trends, and technology investment plans they're facing.

This distinct process ensures that the research we produce is both authentic and highly accurate. It's achieved through robust discussions and constructive debates within these research groups. The outcome is a Community Report, which forms the backbone of our conference agenda.

What makes our conferences unique is that they are shaped by the very community they serve. They're grounded in the actual challenges our community encounters day in and day out. They bring us their questions, and we provide the answers.

At Connecting SAP, everything comes together. It's the point where the magic happens. A profound sense of ownership is instilled in the community because, by the time the event unfolds, the energy and momentum needed for a successful gathering are generated naturally by our engaged and enthusiastic audience.

Connecting SAP promises cutting-edge content, tangible take-aways, and meaningful connections, no matter where you are on your SAP journey! Learn how to get more out of your SAP investment, and prepare adequately for what is to come from SAP.

**“A powerful sense of  
ownership from the  
community is created”**

Connecting SAP is home to three independent communities - HR & Payroll, Finance & Technologies - Each with their own hot topics, agenda, speakers, and exhibitors, and your ticket gives you access to it all!
